2019 Report Update

The LGBT Asylum Project is committed to being fully transparent with our work and information. We originally believed that in 2019 our organization served 136 LGBTQ immigrants. However, after recounting and checking our data, we are pleased to announce our organization actually helped 169 LGBTQ immigrants in 2019. Our annual report, to be released shortly, will have this updated number as well as any other statements moving forward.
